

Phenomenon #1

for 4 soprano saxophones + electronics

Hunter Brown

composed in 2020 for ~Nois

Phenomenon #1 uses 4 soprano saxophones as a composite mechanism for directly activating the human hearing apparatus. The saxophone material was recorded and processed through a collection of corrupted audio codecs. The process for corrupting these codecs severely mangles the psychoacoustic algorithms embedded within each codec. When these codecs process audio that contain explicit psychoacoustic phenomena, they produce sounds that challenge universalized notions of auditory perception, while stretching the boundary of what the listener's ear is capable of.

Multiphonics

The multiphonics included in this front matter are indicated in the score like so:

When a multiphonics's number appears over a single note and is followed by a line, the player should use that note as a threshold tone to transition into that multiphonics over the line's duration.

① S/Bb-7

②③ S/Eb-3+Bb

⑫ S/B-5+Eb

⑲ S/B-7+Ta

④② S/Eb-23+Bb

⑤④ S/B-5+Ta

⑬ S/Bb-56

③① S/C#-5+Eb Ta

④④ S/Bb-17

⑥① S/B-256+Ta

⑩ S/B C-4+Eb

③① S/Eb+BTa

④① S/Bb-7+Ta

⑦② S/C#-5+c1

Variable Multiphonics

Variable multiphonics are indicated by square noteheads: smooth transition from a single threshold tone to a multiphonic.

p ppp p

These multiphonics are grouped into 4 categories. Each player should choose 2-3 multiphonics from each category. They should have complete control over whichever multiphonics they choose. They should also alternate between these multiphonics if a number appears back to back in their part. Each player should choose a different set of multiphonics for each category. The categories and some examples of multiphonics in these categories are shown below. Most importantly: the multiphonics should be executed with smooth transitions in and out of threshold tones and with smooth changes in dynamics.

1. Can smoothly transition to and from 1 note to a closely beating cluster. Warm. (pppp-mp):

Examples: 1, 2, 5, 6-8, 10-13, 16, 21, 22, 24, 25, 57, 77, 78, 81, 84, 88, 100, 124, 128, 139

2. Can smoothly transition to and from 1 note to a multiphonic with subtle, microtonal overtones. (pppp-mp):

Examples: 9, 15, 27, 29, 30, 34, 36, 44, 45, 52, 87, 90, 102, 109, 121, 130

3. Can smoothly transition to and from 1 note to a multiphonic with slightly harsher overtones. Like a light distortion effect.

Should have a little bite. A bit brighter than 2. (pppp-mp):

Examples: 31, 37, 42, 60, 66, 75, 79, 89, 99

4. Can smoothly transition from 1 note to a consonant cluster (pppp-mp):

Examples: 17-19, 48, 50, 72, 92, 94, 129, 134-138

Sound All notes without a specified accent and/or articulation marking should have a rounded, dull accent followed by a steadily sustained sound. Similar. The "tails" or sustain of each note creates a texture like an undulating ocean of oil and the protruding accents are like bubbles popping out of the murkiness.

Tuning

Sax 1: Sax 2: Sax 3: Sax 4: I want the music to be out of tune.

+43 cents +20 cents -19 cents -35 cents

Don't worry if the detuning messes with your ability to accurately perform multiphonics.

Notation

Trill. If the note is preceded by a grace note, trill those two notes. If there is a trill marking paired with a dyad, trill those two notes

Glissando. Always transform the pitch in a linear shape.

Accidentals carry throughout the measure.

Air leak. Treat this note as a transformation from pitch to air for the duration of the note. Like noise emerging from a pitch. Spit sound is encouraged!

Like so: **Pitch** **Air/Noise**

Square grace noteheads. Play the grace note on the beat in which the primary note occurs.

Dynamics: Dynamics are relative. Contrast and smooth transitions are the most important. The consistent **pp** is the base level. All sonic transformations should sound like they are emerging from these underlying undulating texture.

Grace note proximity:

Green: Far in front of the primary note. A "wide flam." Should be irregular/trashy/sloppy. **Black/Normal:** Standard treatment of grace note placement

Pink: As close to the primary note as possible. Should sound like a glitch, like you're correcting a wrong note.

Red Circle note heads. Play these notes 10-20 milliseconds later than written. A reverse tied grace note. Like a glitch in the grid/matrix.

Open slap tongue

Open slap tongue

Teeth on reed: Low to High. Squeal/speaks/sharp shards, always grating!

Electronics Performance Instructions:

Contact me for a Reaper file that contains a click track and the stereo fixed media file: hunterbrownmusic1@gmail.com

Required equipment:

- Audio interface with 4 outputs (outputs 1-2 are routed to the mixer and 3-4 are routed to a headphone amp)
- Headphone amp with 4 outputs and 4 headphones connected
- 4 condenser microphones to amplify each saxophone
- The fixed media output from the interface and the 4 microphones should be routed to a mixer so that an equal balance between the electronics and acoustic saxophones can be achieved on the stereo PA.
- The stereo PA should be positioned as close to the saxophones as possible. It should sound like the electronics are emanating from the same physical space as the saxophones.

Detailed description: The image shows a musical score for a piece titled 'Phenomenon #1'. It consists of two systems of four staves each, labeled S. Sx. 1 through S. Sx. 4. The first system starts at measure 24, and the second system starts at measure 26. The staves are in treble clef. The first staff (S. Sx. 1) has a key signature of one flat (Bb) and a common time signature. The second staff (S. Sx. 2) has a key signature of one sharp (F#) and a common time signature. The third staff (S. Sx. 3) has a key signature of one flat (Bb) and a common time signature. The fourth staff (S. Sx. 4) has a key signature of one sharp (F#) and a common time signature. The score includes various musical notations such as notes, rests, slurs, and articulation marks. Dynamic markings include *pppp*, *p*, *mp*, *pp*, *mf*, and *pp*. There are also trills and accents marked with 'x' and 'v'. The staves are numbered 24, 26, and 28. The staves are labeled S. Sx. 1, S. Sx. 2, S. Sx. 3, and S. Sx. 4. The staves are numbered 24, 26, and 28. The staves are labeled S. Sx. 1, S. Sx. 2, S. Sx. 3, and S. Sx. 4.

Detailed description: This musical score, titled 'Phenomenon #1', spans measures 61 to 72. It is written for four staves, labeled S. Sx. 1 through S. Sx. 4. The notation is in treble clef with a key signature of one sharp (F#). The score is divided into two systems. The first system (measures 61-72) features various melodic lines with slurs, ties, and dynamic markings. S. Sx. 1 has a melodic line with slurs of 5, 7, and 3 notes, and a final measure with a tempo marking of quarter note = 72. S. Sx. 2 has a melodic line with a wavy line indicating a tremolo or vibrato, and a final measure with a tempo marking of quarter note = 72. S. Sx. 3 has a melodic line with a wavy line and a final measure with a tempo marking of quarter note = 72. S. Sx. 4 has a melodic line with a wavy line and a final measure with a tempo marking of quarter note = 72. The second system (measures 64-72) continues the melodic lines with slurs and ties. S. Sx. 1 has a melodic line with slurs of 7, 3, 5, 7, 7, 3, and 5 notes. S. Sx. 2 has a melodic line with a wavy line and a final measure with a tempo marking of quarter note = 72. S. Sx. 3 has a melodic line with a wavy line and a final measure with a tempo marking of quarter note = 72. S. Sx. 4 has a melodic line with a wavy line and a final measure with a tempo marking of quarter note = 72. The score includes various dynamic markings such as *pp*, *p*, and *pppp*. The notation is in treble clef with a key signature of one sharp (F#). The score is divided into two systems. The first system (measures 61-72) features various melodic lines with slurs, ties, and dynamic markings. S. Sx. 1 has a melodic line with slurs of 5, 7, and 3 notes, and a final measure with a tempo marking of quarter note = 72. S. Sx. 2 has a melodic line with a wavy line indicating a tremolo or vibrato, and a final measure with a tempo marking of quarter note = 72. S. Sx. 3 has a melodic line with a wavy line and a final measure with a tempo marking of quarter note = 72. S. Sx. 4 has a melodic line with a wavy line and a final measure with a tempo marking of quarter note = 72. The second system (measures 64-72) continues the melodic lines with slurs and ties. S. Sx. 1 has a melodic line with slurs of 7, 3, 5, 7, 7, 3, and 5 notes. S. Sx. 2 has a melodic line with a wavy line and a final measure with a tempo marking of quarter note = 72. S. Sx. 3 has a melodic line with a wavy line and a final measure with a tempo marking of quarter note = 72. S. Sx. 4 has a melodic line with a wavy line and a final measure with a tempo marking of quarter note = 72. The score includes various dynamic markings such as *pp*, *p*, and *pppp*. The notation is in treble clef with a key signature of one sharp (F#).

This musical score is for a four-part setting of a text, labeled 'Phenomenon #1'. It covers measures 159 to 162. The parts are Soprano Saxophone 1 (S. Sx. 1), Soprano Saxophone 2 (S. Sx. 2), Alto Saxophone 3 (S. Sx. 3), and Alto Saxophone 4 (S. Sx. 4). The key signature has one flat (B-flat), and the time signature is 4/4. In measure 159, S. Sx. 1 has a half note G4 with a bar line above it, followed by a quarter rest. S. Sx. 2 has a whole note chord of G4 and F#4. S. Sx. 3 has a half note F#3 with a bar line below it, followed by a quarter rest. S. Sx. 4 has a half note F#3 with a bar line below it, followed by a quarter rest. In measure 160, S. Sx. 1 has a half note A4 with a bar line above it, followed by a quarter rest. S. Sx. 2 has a whole note chord of G4 and F#4. S. Sx. 3 has a half note G3 with a bar line below it, followed by a quarter rest. S. Sx. 4 has a half note G3 with a bar line below it, followed by a quarter rest. In measure 161, S. Sx. 1 has a half note B4 with a bar line above it, followed by a quarter rest. S. Sx. 2 has a whole note chord of G4 and F#4. S. Sx. 3 has a half note A3 with a bar line below it, followed by a quarter rest. S. Sx. 4 has a half note A3 with a bar line below it, followed by a quarter rest. In measure 162, S. Sx. 1 has a half note C5 with a bar line above it, followed by a quarter rest. S. Sx. 2 has a whole note chord of G4 and F#4. S. Sx. 3 has a half note B3 with a bar line below it, followed by a quarter rest. S. Sx. 4 has a half note B3 with a bar line below it, followed by a quarter rest. The score ends with a double bar line at the end of measure 162.
